Calder IT and Signum Solutions Unite to Revolutionise IT Solutions in the UK

Calder IT, a distinguished IT services company renowned for delivering cutting-edge technology solutions to businesses across the UK, is thrilled to announce an exciting strategic partnership with Signum Solutions, a leading provider of SAP Business One solutions in the UK.

This strategic alliance signifies a momentous collaboration between two dynamic entities, poised to offer an unparalleled array of IT products, services, and support to organisations nationwide. By synergising Signum Solutions' deep expertise in SAP Business One with Calder IT's proficiency in cloud computing, cybersecurity, IT infrastructure, and more, this partnership equips businesses with forward-looking technology solutions tailored precisely to their unique requirements.

Peter Dennis, Head of Sales at Signum Solutions, expressed his enthusiasm about the partnership, saying, "We are delighted to join forces with the exceptional team at Calder IT. Together, we are well-positioned to provide our clients with a comprehensive suite of IT solutions that will streamline operations, enhance productivity, fortify security, and give them a competitive advantage, be it for ERP software, hardware enhancements, ongoing technical support, or any other IT needs."

James Bulley, Managing Director of Calder IT, echoed this sentiment, stating, "Our collaboration with the experts at Signum Solutions is a game-changer for delivering outstanding IT strategic services to our clients. By combining our strengths, we can assist businesses across the UK in thriving with the right technologies to address their evolving challenges."

The partnership between Signum Solutions and Calder IT will leverage their respective competencies to offer an expanded range of IT solutions, encompassing SAP Business One implementations, cloud-driven technologies, and comprehensive IT support services. Together, they are poised to act as a dynamic force, aiding businesses of all sizes and industries in achieving their IT objectives and maintaining competitiveness in today's ever-evolving digital landscape.
